

# MYP Global Context Graphic Organizer

1) Circle the global context that you are selecting:

- ★ Scientific & Technical Innovation
- ★ Globalization & Sustainability
- ★ Fairness & Development

Completely logical connection + thorough explanation!

2) Why is this the "lens" through which you want to describe your idea?

I'm choosing this "lens" because I must create a solution that will connect communities, involve rights and responsibilities, and imagine a hopeful future.

3) What connections can you make between your global context and:

The Problem	Existing Solutions	Your Thoughts, Feelings, Beliefs on the Topic
In America we live among these kids in need and it is a big issue. Communities can come together by helping each other and giving hope to children in need.	Existing solutions all involve communities such as schools, neighborhoods, etc. giving back and coming together to help families and children.	I feel as if people who are fortunate have a minor responsibility to give what we can to help issues like this. We live in this world, so making small contributions can help change the world positively in

4) Why do you believe this global context the "best fit" for your project?

I think it is best fit because it has to do with giving back to help people in need. It involves realizing that we have a small responsibility of helping people in need that have a hard time helping themselves. BIG Ways
